

Are You Taking Advantage Of The Benefits Of Tax Deferral?

The Power Of Tax Deferral

One of the benefits of an annuity is tax deferral, because you don't pay taxes on your earnings until you withdraw your funds. Tax-deferred annuities make your money work harder with triple-compounding by:

- 1) Earning interest on your principal
- 2) Earning interest on your interest
- 3) Earning interest on your tax savings...because your interest is not subject to current income tax in an annuity until it's withdrawn, 100% of your interest can continue to compound instead of being withdrawn currently for tax payments.

Taking advantage of tax deferral may increase your earning power. For example, if your federal tax bracket is 25%, and you earn 2.50% investment in your tax-deferred annuity, you would need to earn a rate of 3.33% in a taxable investment to match the earnings of your annuity.

Annuities are not (a) insured by the FDIC or any federal government agency, (b) deposits of or guaranteed by any bank or credit union and (c) a provision or condition of any bank or credit union activity. Some annuities are subject to investment risk and may lose value. A surrender charge may apply during the surrender period, and a 10% early withdrawal penalty may apply to withdrawals prior to age 59 ½.
