B Dollar Cost Averaging (DCA) Program
--

With our Dollar Cost Averaging Program, you have the option to allocate all or a portion of your initial purchase payment to be automatically invested at regular intervals in the variable investment options you select in Section C.

Please designate the percentage of your initial purchase payment, if any, that you would like invested using our Dollar Cost Averaging Program. If a DCA frequency is selected below and the DCA percentage is left blank, we will default to 100%.

Percentage DCA: _____% (up to 100%)

DCA Frequency:

- ☐ 6 Month – 6 Monthly Payments
- ☐ 12 Month – 12 Monthly Payments

All future purchase payments will be allocated to the Investment Options selected in Section C unless we are otherwise instructed at time of the purchase payment. The DCA Program must be elected separately for each purchase payment. The first transfer under the DCA program will occur on the day we receive your purchase payment. The program continues until your contract value allocated to the program is depleted or you elect to stop the program.

C Investment Options

Important notes regarding your investment options:

You must allocate a whole percentage for each investment option you select. **The grand total for all your allocations must be 100%.**

The categories below are applicable only if you have elected a living benefit or death benefit rider.

If you have elected any of the Guaranteed Lifetime Withdrawal Benefit (GLWB), Return of Premium Death Benefit (ROP), or Highest Anniversary Value Death Benefit (HAV) riders, then:

- You may not allocate to a Fixed Account Guarantee Period.
- All future purchase payments will be allocated according to the allocations specified below at the time of the purchase payment, unless we are otherwise instructed.
