Delaware Life Masters Prime Variable AnnuitySM

Sub-Account Performance Summary as of August 31, 2019

Performance results of the Subaccount for Delaware Life Masters Prime Variable AnnuitySM assume a \$1,000 initial Purchase Payment was invested in shares of each of the Funds displayed above.

Performance current to the most recent month-end is available at www.delawarelife.com

Variable annuities are subject to investment risks, including the possible loss of principal. Variable annuities are long-term investments designed for retirement purposes.

Variable annuities have limitations, exclusions, charges, termination provisions and terms for keeping them in force. The contract value is subject to market fluctuations and investment risk so that, when withdrawn, it may be worth less than its original value, even when an optional living benefit is elected. All product guarantees, including optional living and death benefits, are subject to the claims-paying ability and financial strength of the issuing insurance company.

Withdrawals of taxable amounts are subject to ordinary income tax and if made before age 59½, may be subject to a 10% federal income tax penalty. Distributions of taxable amounts from a non-qualified annuity may also be subject to an additional 3.8% federal tax on net investment income. Withdrawals will reduce the contract value and may reduce any optional living and/or death benefits. Withdrawals may be subject to withdrawal charges.

There is no guarantee that the underlying Funds will meet their stated goals or objectives. The underlying Funds may decline in value due to risks and factors including, but not limited to, real or perceived adverse economic, political, or regulatory conditions, inflation, changes in interest or currency rates or adverse investor sentiment. Adverse market conditions may be prolonged and may not have the same impact on all types of mutual funds. The Funds' values may decrease due to factors affecting a Fund class, industry or the securities market. You should read your underlying Fund prospectus before you invest.

Insurance products and their guarantees, including optional benefits, are backed by the financial strength and claims-paying ability of the issuing insurance company, and do not protect the value of variable investment options.

This material must be preceded or accompanied by a current contract prospectus and the underlying Fund prospectuses. Prospectuses for the Delaware Life Masters Prime Variable AnnuitySM and the underlying Funds are available from your financial professional or at www.delawarelife.com. The investment objectives, risks and policies of the investment options, as well as other information about the investment options, are described in the respective Fund prospectuses. Investors should consider the investment objectives, risks, charges and expenses of the investment company carefully before investing. Please read the current contract and underlying Fund prospectuses before investing or sending money.

Delaware Life Masters Prime Variable AnnuitySM is issued by Delaware Life Insurance Company, Waltham, MA, and distributed through its affiliate Clarendon Insurance Agency, Inc. (member FINRA). Product Availability and features may vary by state.

Issued on Contract: ICC18-DLIC-VA-C-01 (state variations may apply).

Rider Numbers: ICC18-DLIC-VA-GLWB-01, ICC18-DLIC-VAHAVDB, ICC18-DLIC-VAROPDB, ICC18-DLIC-VANHW, ICC18-DLIC-VATIW (state variations may apply).

Fund Inception Date. This represents the inception date of the fund and may predate the offering of the subaccount in the separate account. Where this occurs, the performance is hypothetical in that it depicts how the underlying investment options would have performed had it been available in the separate account during the time period.

Subaccount Inception Date. This represents the date on which the subaccount that invests in a particular Fund was included as an investment option in Delaware Life Separate Account F.

Non-standardized. Results in this column are hypothetical and may reflect the historical performance of the subaccount prior to the inclusion of the fund as a subaccount in the separate account containing the variable annuity being illustrated. Performance reflects fund fees and expenses (after any applicable fee waivers or expense reimbursements) and the asset charge of 1.20% (stated as a percentage of average variable account assets and inclusive of the mortality and expense charges of 0.85%; administration fee of 0.15%; and the distribution fee of 0.20%). These results do NOT include withdrawal charges or the Contract Fee. If withdrawal charges and the annual account fee were included, they would reduce the performance shown. These results do NOT include any charge for Optional Living Benefits or Death Benefits.

Adjusted Non-standardized Returns. Results in this column assume contract surrender at the end of the applicable period. Performance reflects fund fees and expenses (after any applicable fee waivers or expense reimbursements) and the asset charge of 1.20% (stated as a percentage of average variable account assets and inclusive of the mortality and expense charges of 0.85%; administration fee of 0.15%; and the distribution fee of 0.20%). These results include the applicable withdrawal charge at the following rate: 8%, 7%, 6%, 6%, 5%, 4%, 3% during the 7-year withdrawal change period and the \$30 Contract Fee. Hypothetical returns are computed by applying charges and expenses to a Fund since the inception of each such Fund. These results do NOT include any charge for the Optional Living Benefits or Optional Death Benefits.

Standardized. Historical results reflect the performance of the subaccount(s) since the date they were first offered as investment option(s) in the separate account that contains the variable annuity contract illustrated. Performance reflects fund fees and expenses (after any applicable fee waivers or expense reimbursements) and the asset charge of 1.20% (stated as a percentage of average variable account assets and inclusive of the mortality and expense charges of 0.85%; administration fee of 0.15%; and the distribution fee of 0.20%). These results include the applicable withdrawal charge at the following rate: 8%, 7%, 6%, 6%, 5%, 4%, 3% during the 7-year withdrawal change period and the \$30 Contract Fee. These results do NOT include any charge for Optional Living Benefits or Death Benefits.

¹† 7-Day Yield for Money Market Funds: The current yield reflects the current earnings of the Fund, while the total return refers to a specific past holding period. The 7-Day Yield is the average income return over the previous seven days, assuming the rate stays the same for one year. It is the Fund's total income net of expenses, divided by the total number of outstanding shares and includes any applicable waiver or reimbursement. Absent such waivers or reimbursements, the returns would have been lower.

²† You could lose money by investing in the MM Fund. Although the MM Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. The MM Fund may impose a fee upon sale of your shares or may temporarily suspend your ability to sell shares if the MM Fund's liquidity falls below required minimums because of market conditions or other factors. An investment in the MM Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time.

NOT A DEPOSIT-NOT FDIC/NCUA INSURED – MAY LOSE VALUE – NO BANK/CREDIT UNION GUARANTEE – NOT INSURED BY ANY GOVERNMENT AGENCY
