When a trust owns an inherited contract, who does Great American base the RMD payments on?

SECTION VIII. OWNER ACKNOWLEDGMENT AND SIGNATURE AUTHORIZATION**I UNDERSTAND AND AGREE:**

1. An Inherited IRA can only receive funds from an IRA-to-IRA trustee-to-trustee direct transfer or as a direct rollover from a 401 Pension/Profit-Sharing/401(k) plan, a 403(b) TSA Plan, or a 457(b) Governmental Plan. The funds cannot have been paid out to me, or passed through my checking account or other nonqualified account.
2. RMD systematic payments will be reduced by any withdrawals taken from the annuity contract during the same calendar year. RMD systematic payments are intended to satisfy the Required Minimum Distribution for this Inherited IRA annuity contract for the current year IF no withdrawals from the annuity contract were direct transferred to another contract or account. If any such direct transfers occurred, then the RMD systematic payments will be insufficient to satisfy the Required Minimum Distribution for this annuity contract.
3. The RMD payment calculation method chosen above must match the calculation method used for the RMD payments (if any) since the death of the Decedent that were made from any 401 plan, 403(b) TSA plan, or governmental 457(b) plan in which the funds were held on the Decedent's date of death.
4. RMD systematic payments are made to the owner. They are not eligible rollover distributions. They cannot be rolled over or direct transferred.
5. I am personally responsible for any income tax implications of my election.
6. RMD systematic payments will be subject to the "Required Minimum Distribution (RMD) Systematic Payment Terms and Conditions for Inherited IRAs," which I have received and read, and which I should keep for future reference.

I HAVE READ, UNDERSTOOD, AND AGREED to the Required Minimum Distribution (RMD) Systematic Payment Terms and Conditions for Inherited IRAs. **I AUTHORIZE** the appropriate Great American Insurance Group member company to process this election.

SECTION I. INSTRUCTIONS

To begin RMD systematic payments from an Inherited IRA contract, complete the first two pages of the “*Systematic Payment Election Agreement*” and forward to our office. The completed form along with any other necessary paperwork should be returned to the appropriate Great American Insurance Group member company at least 15 days before the requested payment date. Please detach this portion of the form and retain for your records. Should you have any questions, please contact your agent or our Client Relations Department.

SECTION II. DESCRIPTION OF RMD CALCULATION METHODS

Subject to the restrictions and additional terms and conditions stated in Section III, the owner of an Inherited IRA contract may elect to receive systematic payments in lieu of annuitizing the contract.

AMOUNT OF PAYMENTS

The amount to be paid for any given year will be determined by dividing the Fair Market Value as of the end of the prior year by the life expectancy factor for the distribution year, and then subtracting any distributions already made during the current calendar year. In the case of payments made monthly, quarterly, or semi-annually, the amount to be paid on each payment date will be equal to the remaining amount for the current calendar year divided by the number of remaining payments for the year.

The life expectancy factor will be calculated under one of the following methods:

- **Unrecalculated Life Expectancy of Owner.** The life expectancy factor will be determined based on the Owner's age in the year following the Decedent's death. The life expectancy factor will be reduced by 1 for each succeeding year.
- **Unrecalculated Life Expectancy of Eldest Joint Beneficiary.** In cases where the Decedent had multiple beneficiaries and the Owner's benefit was not segregated, or in cases where the beneficiary is a trust and payments are to be based on the life expectancy of the trust beneficiaries, the life expectancy factor will be determined based on the eldest beneficiary's age in the year following the Decedent's death. The life expectancy factor will be reduced by 1 for each succeeding year.
- **Unrecalculated Life Expectancy of Decedent.** In cases where the Decedent died after his or her RMD required beginning date, at your election the life expectancy factor may be determined based on the Decedent's age in the year of death. The life expectancy factor will be reduced by 1 for each succeeding year.

If the Decedent died before the RMD required beginning date, we will not make payments based on the five-year rule.

SECTION III. ADDITIONAL TERMS AND CONDITIONS

The following additional terms and conditions apply to RMD systematic payments from an Inherited IRA:

RESTRICTIONS ON RMD SYSTEMATIC PAYMENTS FOR INHERITED IRAs

1. **Restrictions on Entry.** You may not begin RMD systematic payments in the contract's first calendar year if the contract is funded by a rollover from a 401, 403(b), or 457 plan. You may not begin RMD systematic payments after payments are made under a settlement option.
2. **Prior RMD Payments Made.** RMD payments (if any) for prior years must have been paid before RMD systematic payments begin.
3. **Prior RMD Payment Method.** The RMD calculation method chosen must match the calculation method used for the RMD payments (if any) since the death of the Decedent that were made from any 401 plan, 403(b) TSA plan, or governmental 457(b) plan from which funds were rolled over.
4. **Time for Election.** An RMD systematic payment election agreement must be received by the Great American Insurance Group member company no later than 15 days before the first systematic payment is to be made.

CHANGES AND OTHER ANNUITY CONTRACT ACTIVITY

5. **Changes Limited.** Unless we agree, you may not change or revoke your RMD systematic payment election in any year except to annuitize the contract under a settlement option that provides for payments that are at least as rapid as the current RMD calculation method.
6. **Additional Transfers or Rollovers Not Permitted.** You may not make any additional transfers or rollovers into the annuity contract after RMD systematic payments begin.
7. **Withdrawals and Surrenders.** Withdrawals and surrenders are permitted after RMD systematic payments begin. A withdrawal will reduce the amount of the RMD systematic payments to be made later in that calendar year.

**REQUIRED MINIMUM DISTRIBUTION (RMD)

FOR INHERITED IRAs**

SECTION III. ADDITIONAL TERMS AND CONDITIONS *(continued)*

RMD SYSTEMATIC PAYMENT AMOUNTS AND TERMS

- 8. Minimum Payments.** If Monthly, Quarterly, or Semi-Annual payments are elected, the initial net payments must be a minimum of \$50 monthly, \$150 quarterly, or \$300 semi-annually. The appropriate Great American Insurance Group member company may alter the payment mode if the initial or any subsequent net payment fails to meet these minimums.
- 9. Duration of Payments.** Unless changed or terminated as provided in these terms and conditions, RMD systematic payments will continue for the unrecalculated life expectancy of the designated person or until a death benefit is due under the annuity contract.
- 10. Life Expectancy Calculations.** RMD systematic payments will be calculated based on unrecalculated life expectancy of the designated person as determined in accordance with the required minimum distribution rules of federal tax law.
- 11. Required Minimum Distribution Payment.** RMD systematic payments will be reduced by any withdrawals taken from the annuity contract during the same calendar year. RMD systematic payments are intended to satisfy the required minimum distribution for this Inherited IRA annuity contract for the current year IF no withdrawals from the annuity contract were direct transferred to another contract or account. If any such direct transfers occurred, then RMD systematic payments will be insufficient to satisfy the required minimum distribution for the annuity contract.
- 12. No Rollover or Direct Transfer.** RMD systematic payments are made to the owner. They are not eligible rollover distributions. They may not be rolled over or direct transferred.
- 13. Payment Frequency.** Monthly, Quarterly, or Semi-Annual payments are only available via electronic funds transfer to the owner's checking or savings account. If bank information is not provided and/or should bank information be subsequently rejected at any time, future payments will be made annually by check mailed to the owner at their address of record.
- 14. Changes and Termination.** The company reserves the right to change or terminate RMD systematic payments at any time without advance notice. Upon termination, we may require you to annuitize the contract under a settlement option that provides for payments over a fixed period no longer than the remaining non-recalculated life expectancy, to surrender the contract, or to assume full responsibility for withdrawing the required minimum distribution from the contract.

EFFECT ON OTHER ANNUITY CONTRACT PROVISIONS

- 15. Early Withdrawal Charges.** Early Withdrawal Charges and market value adjustments, if any, will be waived on an amount equal to the RMD systematic payments. We may also choose to waive proportionality adjustments, if any, or to apply those charges on a nondiscriminatory basis. However, if the contract is surrendered within 12 months of an RMD systematic payment, or if it is annuitized within 12 months for a period that does not qualify for a waiver of charges and adjustments, then applicable charges or adjustments that were waived with respect to that payment will be retroactively applied. RMD systematic payments for a year will reduce the amount of any other penalty-free withdrawals which otherwise may be available under the annuity contract during that year. A partial withdrawal will reduce the amount of the RMD systematic payments to be made later in that year.
- 16. Availability of Annuity/Account Value.** Under certain annuity contracts, the Annuity/Account Value is available upon maturity only if annuitization payments are to be made for life or some minimum number of years. Under certain annuity contracts, fixed period annuitizations must be for at least some minimum number of years. RMD systematic payments will not count towards meeting any such minimum requirement.
- 17. Contract Minimums.** We may surrender your contract and pay the cash surrender value to you at any time that RMD systematic payments reduce the Surrender Value below the minimum requirement of the annuity contract.
