

Peace of mind with Enhanced Guaranteed Surrender Value

What is the Enhanced Guaranteed Surrender Value (EGSV)?

An EGSV provides a guaranteed rate of return, no matter how the market index in your annuity is performing. Delaware Life's Retirement Stages 7® Fixed Index Annuity comes with an EGSV that is equal to 100% of premium payments, plus interest credited at 1% (compounded annually).¹

Peace of mind

EGSV provides protection from market-related loss and guaranteed account value growth of 1% compounding.¹ In the example below, a client begins with a premium of \$100,000 in Retirement Stages 7® and elects CROCI Sectors III USD 5.5% Volatility Control Index ("Index") with 1-year point-to-point with spread crediting strategy. At the end of 7 years, even if the Index does poorly and produces no interest, the contract could grow to \$107,213. If the Index does well, the contract could grow to \$130,334 or more.²

Your clients can rest assured, knowing that their purchase premiums will grow by at least by 1% annually,¹ with the potential for greater accumulation based on their choice of indexes and crediting strategies.

For more information on Retirement Stages 7® and its Enhanced Guaranteed Surrender Value (EGSV), call your wholesaler or visit delawarelife.com.

¹ Less any withdrawals and applicable withdrawal assessments.

² The graph is hypothetical and is not meant to illustrate past or future performance of any index. The \$130,334 is meant to represent back-tested CROCI Sectors III USD 5.5% Volatility Control Index performance from 1/1/2011-12/31/2017 with a 1.95% spread. The Volatility Control Index has been calculated by Deutsche Bank AG, London Branch (the "Index Calculation Agent") on a live basis since March 13, 2015 (the "Index Live Date") and has been retrospectively calculated using historical data and the same methodology since April 4, 1996 (the "Index Commencement Date"). Therefore, the Volatility Control Index has very limited performance history and no actual investment which allowed tracking of the performance of the Volatility Control Index was possible before the Index Live Date. Furthermore, the index methodology of the Volatility Control Index was designed, constructed and tested using historical market data and based on knowledge of factors that may have affected its performance. Any returns prior to the Index Live Date were achieved by means of a retroactive application of the back-tested index methodology designed with the benefit of hindsight. The actual performance of the Volatility Control Index may bear little relation to the retrospectively calculated performance of the Volatility Control Index if the market behaves differently than it has in the past.

Delaware Life Fixed Index Annuities (the "Products") are not sponsored, endorsed, managed, sold or promoted by Deutsche Bank AG (DB AG) or any subsidiary or affiliate of DB AG. The Deutsche Bank Indexes are the exclusive property of DB AG. "Deutsche Bank" and "CROCI" are proprietary marks of DB AG and its affiliates that have been licensed for certain uses and purposes to Delaware Life Insurance Company (DLIC). Neither DB AG, CROCI, nor any affiliate of DB AG, nor any other party involved in, or related to, making or compiling the Deutsche Bank Indexes:

- Is acting in a fiduciary or product management capacity or providing any endorsement of the Products or investment advice of any kind;
- Has any obligation to take the needs of DLIC, the sponsor of the Products, or its clients into consideration in determining, composing or calculating the Deutsche Bank Indexes;
- Is responsible for or has participated in the determination of the timing of, prices at, quantities or valuation of the Products;
- WARRANTS OR GUARANTEES THE ACCURACY AND/OR THE COMPLETENESS OF THE DEUTSCHE BANK INDEXES OR ANY DATA INCLUDED THEREIN AND SHALL HAVE NO LIABILITY FOR ANY ERRORS, OMISSIONS, OR INTERRUPTIONS THEREIN OR THE ADMINISTRATION, MARKETING OR TRADING OF THE PRODUCTS.

The CROCI Sectors III USD 5.5% Volatility Control Index has been built on the premise that the CROCI Economic P/E is an effective indicator of inherent value. This premise may not be correct, and prospective investors must form their own view of the CROCI methodology and evaluate whether CROCI is appropriate for them.

Please see the Disclosure Statements and Annuity Illustrations for more information about the Deutsche Bank Indexes and the Products.

Obligations to make payments under the Products are solely the obligation of Delaware Life Insurance Company and are not the responsibility of DB AG. The selection of one or more of the Deutsche Bank Indexes as a crediting option under the Products does not obligate Delaware Life Insurance Company or DB AG to invest annuity payments in the components of any of the Deutsche Bank Indexes.
