

Optional Interest Adjustment

The Dynamic Choice includes an Interest Adjustment that is applied only during the surrender charge period to full surrenders and to any partial surrender in excess of the penalty-free amount. This adjustment may decrease or increase the cash Surrender Value depending on the change in interest rates during the period since you purchased your Dynamic Choice annuity. See the "Understanding the Interest Adjustment" brochure for more information. This feature can only be elected at issue.

Optional Return of Premium Feature

The Return of Premium feature provides that upon termination of your Contract, you can receive back no less than your Net Premium. Net Premium equals your initial premium, plus subsequent premiums, less partial surrenders (after surrender charges and Interest Adjustment, if elected). This feature can only be elected at issue.

Surrender Charges

By initialing below, I understand that the Dynamic Choice annuity is a **long-term contract with substantial penalties for early surrenders**. A surrender charge is assessed, as listed below, on any amount withdrawn, whether as a partial withdrawal or full surrender, that is in excess of the penalty-free amount applicable. Please keep in mind that a surrender during the surrender charge period may result in a loss of premium unless the Return of Premium feature is elected. However, surrender charges and Interest Adjustments on IRS-Required Minimum Distributions that exceed the penalty-free amount are waived by current Company practice. The surrender charges vary by product option and decline as follows:

Owner(s): Please check the "elect" box next to the Guarantee Period and Return of Premium options chosen and check the "decline" box for the other options. You may only elect one Guaranteed Period Option.
