

Retirement Stages 7[®] Fixed Index Annuity

STAIR[®] (Stacked Accumulation Income Rider[®])

Optional Guaranteed Minimum Lifetime Withdrawal Benefit
Issued by Delaware Life Insurance Company

An Easy Way to Add Value—and Longevity—to Your Annuity

Want the confidence that comes with knowing that you won't outlive your income when you retire? For an additional fee,¹ you can add the Stacked Accumulation Income Rider[®] (STAIR[®]) to your Delaware Life Fixed Index Annuity.

This optional lifetime withdrawal benefit rider guarantees that you (or you and your spouse) will get *retirement income payments for life*, even if the annuity account cash value drops to zero. With STAIR[®], the power of time and compounding interest are on your side to grow your benefit base faster.

Each year (for up to 15 years), your account will grow by both the interest credit from your index allocation(s) PLUS an additional 4% credit added ("stacked") to your benefit base.

And your STAIR[®] fee is based and charged on your account value, not your benefit base. Your benefit base is left alone to grow until you're ready to take income payments.

(Remember: The benefit base is the amount used to calculate your income payments. It is not available as a cash/surrender value or death benefit.)

Here's How the STAIR[®] Roll-up Can Help Your Future Income Grow

The hypothetical chart above shows how the benefit base can grow under varying market/index conditions with the purchase of the STAIR[®] optional guaranteed minimum lifetime withdrawal benefit rider. It does not represent the performance of any Delaware Life Fixed Index Annuity. The interest credit will be subject to caps, spreads and/or participation rates.

¹ Rider cost – 0.95% is deducted from the account value on each contract anniversary.

² The benefit base is credited with the 4% roll-up after any interest credit is added to the account (cash) value.
