Owner's Beneficiary Designation² - In the event of the owner's death, death benefit proceeds are payable to the owner's primary beneficiary. If there are joint owners, the death benefit is payable upon the first death. If there are joint owners, the surviving joint owner, if any, will be the designated primary beneficiary unless otherwise specified below. Note: Complete the Owner's Primary Beneficiary Section if you want to name someone other than the surviving owner to receive 100% of the death benefit. If the owner's primary beneficiary is no longer living at the time of the owner's death, the owner's contingent beneficiary will receive the death benefit proceeds.

Please designate if you want the beneficiary designation to be Per Stirpes or Per Capita. If an election is not made then by default it will be Per Capita. Per Stirpes designations require a listing of the children on a separate sheet of paper that is signed and dated. The list must include the children's names, addresses, phone numbers, dates of birth and social security numbers.

- Per Stirpes definition: A common way of distributing proceeds where if one or more beneficiaries has died, his or her children share equally in his or her share of the proceeds.
- Per Capita definition: Proceeds are split amongst the beneficiaries that survive the owner/annuitant. If one of the beneficiaries does not survive the owner/annuitant then the remaining beneficiaries receive the proceeds split equally.

MNL IncomeVantage® 10

Annuity Disclosure Statement

Thank you for your interest in the MNL IncomeVantage® 10 Annuity from Midland National® Life Insurance Company. It is important for you to read and understand this summary before you decide to purchase the annuity. This summary will help you understand the features of the annuity and determine if it will help you meet your financial goals. Once you have read this summary, please sign pages 8 and 10 to confirm that you understand the annuity and submit this document with your application for the annuity. *Refer to the Contract for complete details.*

This Annuity Disclosure Statement must be signed by the applicant and agent, then return the Home Office copy to Midland National Life Insurance Company, Annuity Division with the application.

4350 Westown Parkway, West Des Moines, IA 50266
Phone: (877) 586-0240 • www.MidlandNational.com

For the state of:
North Carolina

The MNL IncomeVantage® 10 is issued in North Carolina on form AS139A32 (contract), AS139A END, AR320A, AR153A, AR154A, AR163A-1, AR192A, AR194A, AR277A, AR278A, AR318A and AR324A (riders/endorsements) by Midland National® Life Insurance Company, West Des Moines, IA.

The MNL IncomeVantage 10 is a flexible premium deferred fixed index annuity from Midland National Life Insurance Company which offers lifetime income through Lifetime Payment Amounts (LPA). The MNL IncomeVantage 10 accumulates interest in the following ways: A) based on the change in the Index Account during each contract year, without the risk of losing premium due to market volatility, and/or B) a traditional Fixed Account. Those individuals who intend to take withdrawals prior to utilizing the Guaranteed Lifetime Withdrawal Benefit (GLWB) may not receive full benefit of the (GLWB) feature.

Fixed Account

The portion of premium allocated to this account will earn the current Fixed Account interest rate. This rate will be guaranteed for the first contract year and the rate for future contract years will be declared annually thereafter at the Company's discretion. This rate will never fall below the Minimum Guaranteed Fixed Account Interest Rate of 0.25%. *Ask your sales representative for the current interest rate.*

Index Account

The Index Account is the portion of your premium that you determine will earn interest based on one or more of the following crediting methods:

- Daily Average Crediting Method with Index Margin
- Monthly Point-to-Point Crediting Method with Index Cap Rate
- Annual Point-to-Point Crediting Method with Index Cap Rate
- Annual Point-to-Point Crediting Method with Participation Rate
- Annual Point-to-Point Crediting Method with Index Margin
- Annual Point-to-Point Crediting Method with Threshold Participation Rate
- Two-Year Point-to-Point (also known as Term Point-to-Point) with Index Margin

Please see the MNL IncomeVantage 10 product brochure for specific details regarding these crediting methods.

Ask your sales representative for the current Index Cap Rates, Index Margins, and Participation Rates, including the Base and Enhanced Participation Rate and the Index Return Threshold.

Threshold Participation Strategy

The Threshold Participation Strategy (or Annual Point-to-Point with Threshold Participation Rate) may credit interest using both a Base Participation Rate and an Enhanced Participation Rate. The index-linked gain is compared to the declared Index Return Threshold. If the gain is less than or equal to the Index Return Threshold, the Base Participation Rate is applied to determine the interest credited. If the gain exceeds the Index Return Threshold, the Base Participation Rate is applied to the portion of the gain up to and including the Index Return Threshold and the Enhanced Participation Rate is applied to the portion of the gain that exceeds the Index Return Threshold. The Index Return Threshold, the Base Participation Rate, and the Enhanced Participation Rate are each declared annually at the Company's discretion. Each of these rates is guaranteed for the first contract year and declared annually thereafter at the Company's discretion, never to be less than 5% for the Base Participation Rate and 10% for the Enhanced Participation Rate. At no time will the Index Return Threshold be set higher than the Maximum Index Return Threshold of 10%.

Index Cap Rate

The Index Cap Rate is an upper limit used to determine Interest Credits. The Index Cap Rate applies to the Annual Point-to-Point and Monthly Point-to-Point Index Account options. It will always be declared on the Contract Anniversary by the Company at their discretion and is guaranteed for the following contract year. This cap may change annually. However, at no time will this cap ever fall below the minimum guarantees which are: 0.50% for the Annual Point-to-Point with Cap Index Account and 0.25% for Monthly Point-to-Point with Cap Index Account.

Participation Rate

The Participation Rate is the percentage of any index gain that will be credited to the Contract as the Interest Credit to the Annual Point-to-Point Index Account. The rate is guaranteed for the first year and declared annually thereafter at the Company's discretion, never to be less than 5% for Annual Point-to-Point with Participation Rate Index Account.

Index Margin

The Index Margin is subtracted from any index gain to determine any Interest Credit. For the Daily Average with Index Margin and the Annual Point-to-Point Index Margin Index Accounts, the Index Margin is subtracted on each contract anniversary. It is guaranteed for the first year and declared annually thereafter at the Company's discretion. For the Two-Year Point-to-Point with Index Margin Index Account, the Index Margin is multiplied by two (which is the term length) and then subtracted at the end of the two-year term. It is declared at the beginning of and guaranteed for each two-year term. The maximum Index Margin is 25% for the Daily Average with Index Margin Index Account and 15% for the Annual Point-to-Point with Index Margin Index Account and the Two-Year Point-to-Point with Index Margin Account.

Payment of Commission

Midland National will pay a sales commission in connection with the sale of this product. This commission is one of many costs which Midland National considers and factors into the product's design and policy performance, including setting the guaranteed rates in the Contract and the manner in which non-guaranteed benefits may be offered. One-hundred percent of your premium deposit will be credited to your account, and no deductions from your premium payment or from your account value will be made due to the payment of this sales commission.

Midland National may enter into written sales agreements with other financial institutions ("selling firms") for the sale of the Contract. The selling firms and their representatives are independent of Midland National. In this case, the selling firms are responsible for evaluating product proposals or recommendations independently and for exercising independent judgment about these proposals. Midland National pays selling firms all or a portion of the commissions received for their sales of the Contract.

SURRENDER CHARGES AND INTEREST ADJUSTMENT

Please read the following information and sign the last page of this disclosure to acknowledge your understanding that Surrender Charges and Interest Adjustments will apply when withdrawals are taken from your Contract during the Surrender Charge Period.

Surrender Charges

A Surrender Charge is assessed on any amount withdrawn, whether as a partial withdrawal or full surrender, that is in excess of the applicable penalty-free amount. Surrenders and Surrender Charges assessed will have a negative impact on future lifetime income. A surrender during the Surrender Charge period may result in a loss of premium.

The Surrender Charges that apply for each Contract Year are based on the state where your Contract is issued and are shown as follows:

Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	Year 7	Year 8	Year 9	Year 10
10%	10%	10%	10%	10%	9%	8%	6%	4%	2%

Surrender charges allow the Company to invest long-term, and in turn, generally credit higher yields.

Surrender charges and Interest Adjustments on IRS-Required Minimum Distributions that exceed the 5% penalty-free amount are waived by current company practice*.

**A feature offered “by current company practice” is not a contractual guarantee of this annuity Contract and can be removed or changed at any time.*

Interest Adjustment (also known as Market Value Adjustment)

The MNL IncomeVantage 10 includes an Interest Adjustment that is applied only during the Surrender Charge period to full surrenders and to any partial surrender in excess of the applicable penalty-free partial surrender amount. This adjustment may decrease or increase the Surrender Value or the amount of a partial surrender depending on the change in interest rates during the period since you purchased this annuity.

Example of Interest Adjustment (Market Value Adjustment-MVA) Formula

The Interest Adjustment will be calculated by multiplying the portion of any full or partial surrender that exceeds any available penalty-free withdrawal amount before the reduction for any Surrender Charge by the formula* described below.

*The Interest Adjustment Factor is: $(i_0 - i_t - ADJ) \times (T)$

i_0 = The current interest rate when the contract was issued.
 i_t = The current interest rate offered for new contracts at time of the partial or full surrender.
ADJ = 0.005

The amount of the Interest Adjustment will never exceed the lesser of a) the total interest credited to the Accumulation Value since issue, less the sum of the absolute values of all Interest Adjustments on prior partial surrenders (i.e. all adjustments positive or negative added together), or b) the applicable Surrender Charge.

T = Time in years as follows: number of days from the date of the partial or full surrender to the end of the current contract year divided by 365; plus whole number of years remaining in the market value adjustment period.

Lower interest rates at time of issue may result in less opportunity for a positive Interest Adjustment in future contract years. In certain rate scenarios at the time of issue, it may not be possible to experience a positive Interest Adjustment.

See the “Understanding the Market Value Adjustment” brochure for more information.

Accumulation Value

Your Accumulation Value is equal to 100% of premium, plus any fixed and index account interest earned, minus withdrawals. The Accumulation Value is used to determine the Death Benefit as well as penalty-free withdrawals.

Surrender Value

The Surrender Value is the amount that is available at the time of surrender. The Surrender Value is equal to the Accumulation Value, subject to the Interest Adjustment (if any), less applicable Surrender Charges and state premium taxes where applicable. The Surrender Value will never be less than the minimum requirements set forth by state laws, at the time of issue, in the state where the Contract is issued.

GUARANTEED LIFETIME WITHDRAWAL BENEFIT (GLWB) FEATURE

Please read the following information and sign the last page of this disclosure to acknowledge your understanding of purchasing this annuity product with the purpose of generating a lifetime income sometime in the future.

What is the Guaranteed Lifetime Withdrawal Benefit (GLWB)?

The Guaranteed Lifetime Withdrawal Benefit feature provides you with a way to receive income payments for life without incurring a Surrender Charge or Interest Adjustment. This feature can provide you with a guaranteed lifetime income stream called a Lifetime Payment Amount (LPA). The LPA is an annual payment amount based on your age, your current GLWB Value, and LPA option elected at the time you elect to begin lifetime income.

When income is started by initiating the GLWB feature, you may modify, start, and stop LPAs. This is different from electing an annuity payout option under your Contract, which does not provide the same income flexibility. If you elect an annuity payout option, the GLWB feature is no longer available to you.

Once elected, the LPA is available even if your annuity's Accumulation Value and GLWB Value are later reduced to zero, provided no excess withdrawals are taken. You will need to notify us in writing to begin LPAs.

If you elect the level LPA option, your LPA will not increase. If you elect the increasing LPA option, your LPA may increase each year based on the weighted average percentage change in the fixed and indexed accounts.

The Lifetime Payment Amount may be reduced if total partial surrenders (including penalty-free withdrawals) during a contract year exceed the GLWB Value Partial Surrender Allowance.

By current company practice*, if you are taking LPAs and the Required Minimum Distribution (RMD) for this Contract exceeds your LPA, we will allow withdrawal of the RMD without reducing your LPA.

**A feature offered "by current company practice" is not a contractual guarantee of this annuity Contract and can be removed or changed at any time.*

Will I be taxed on income payments?

Please see your tax advisor. Under current tax law, income payments from this GLWB feature may be taxed as ordinary income. Additionally, if taken prior to 59½, income payments may be subject to 10% IRS penalty tax.

What is the GLWB Value?

The GLWB Value is only used as the basis for calculating your Lifetime Payment Amount (LPA). It is not part of your annuity's Accumulation Value or a Death Benefit, and is only used to calculate the income available to you if you use the GLWB feature. This value cannot be taken as a surrender. Your initial GLWB Value is the initial premium plus any applicable GLWB Bonus. This value is increased by the GLWB Stacking Roll Up Credits described below, as well as subsequent premiums and applicable GLWB Bonus. Please note that all withdrawals (including LPAs) will reduce both your Accumulation Value and your GLWB Value.

GLWB Bonus

During the first five contract years, a 5% GLWB Bonus Percentage will be applied to all premiums received and will increase the GLWB Value. The GLWB Bonus does not apply to the Accumulation Value, it is only applied to the GLWB Value.

GLWB Stacking Roll-Up Credit

A 2% GLWB Stacking Roll-Up Credit may be added to the GLWB Value on each Contract Anniversary during the first 20 contract years. The GLWB Stacking Roll-Up credits compound annually. On each Contract Anniversary during the first 20 contract years, the current GLWB Value may be increased by 2% of the GLWB value plus 150% of the dollar amount of any interest credited (either Fixed or Index Interest Credits) to the Accumulation Value. In contract years when a withdrawal is taken, no GLWB Stacking Roll-Up Credit will apply, unless the withdrawal is used to satisfy a Required Minimum Distribution (RMD). This credit ends once you elect to begin receiving LPAs.

What happens to my GLWB should I die?

Your GLWB Value is not paid out as a Death Benefit.

Individual Annuitant

Upon the death of an individual annuitant, the GLWB feature will terminate. If the annuitant is the contract owner and the spouse is the sole beneficiary, the Contract may be continued under a Spousal Continuation provision, if applicable.

Joint Annuitants

Upon the death of the first joint annuitant, the GLWB will continue when the Contract continues and there will be no change to the Lifetime Payment Amount. Upon the death of the second joint annuitant, the GLWB will terminate.

Death Benefit

The Death Benefit is payable upon the death of the first owner, unless the sole beneficiary is the owner's spouse and he or she elects to continue this Contract under its spousal continuance provisions. If there are joint annuitants, and an annuitant who is not also the contract's owner dies, the death benefit will be paid upon the death of the second annuitant. The Death Benefit equals the Accumulation Value plus potential interest credits for the partial contract year as of the date of death. The calculation of the death benefit will vary depending on the Index Accounts to which the Accumulation Value is allocated at the time of death. The beneficiary may choose to receive the Death Benefit in either a lump sum or a series of income payments.

A death benefit is not available if an annuity payout option has been elected.

NOTE: The GLWB bonus is not applicable to the Accumulation Value, so it is not included in the Death Benefit. The GLWB Value is not available as a death benefit.

Subsequent Premiums

All subsequent premiums will be credited a fixed interest rate until the next Contract Anniversary. This interest rate will be declared at the time the subsequent premium is received. On each Contract Anniversary, Midland National will allocate any premium received since the prior Contract Anniversary according to your most recent instructions. Subsequent premiums added during the first five contract years will receive a GLWB Bonus which will be added to the GLWB Value.

Transfer Options

You may elect to transfer your values between the Fixed Account and Index Account options. You may also elect to transfer between crediting methods within the Index Account options on an annual basis for all annual crediting method options or at the end of each two-year term for the two-year crediting method. By current company practice*, you will have 30 days following each contract anniversary to reallocate. Transfers are not allowed until your first contract anniversary. Based on current tax laws, transfers between options will not be taxable or subject to surrender penalties. *Please refer to your MNL IncomeVantage 10 Additional Benefits Specifications Page, found in your Contract, for minimum transfer amounts.*

Additional Information

The MNL IncomeVantage 10 is not a registered security and does not directly participate in stock or equity investments. Applicable index returns do not include dividends. Past index performance is not intended to predict future performance. Under current law, annuities grow tax-deferred. Annuities may be subject to taxation during the income or withdrawal phase. The tax-deferred feature is not necessary for a tax qualified retirement account. If purchasing this annuity as a qualified retirement account you should consider whether other features, such as the GLWB future income, death benefits, lifetime annuity payments and other riders will help meet your needs. Before purchasing this Contract you should obtain competent advice as to tax treatment of the Contract. Neither Midland National, nor any agents acting on its behalf in the sale of this product, should be viewed as providing legal, tax or securities advice.

LIQUIDITY FEATURES

Certain withdrawals before age 59½ may be subject to a 10% IRS penalty. Exercising the penalty-free withdrawals or annuity payout options explained below will impact future income payments of the Guaranteed Lifetime Withdrawal Benefit feature.

Penalty-Free Withdrawals

Once per year after the first Contract Anniversary, you may take up to 5% of your Accumulation Value as a penalty-free withdrawal (also known as a Penalty-Free Partial Surrender), without Surrender Charges or Interest Adjustment. Any withdrawal will result in a reduction of your Accumulation Value and GLWB Value. Please review the GLWB section for details on how the penalty-free withdrawals may impact your income payments.

Nursing Home Confinement Waiver

After the first Contract Anniversary, if the annuitant becomes confined to a qualified nursing home facility for at least 90 consecutive days, we will increase the penalty-free withdrawal amount to 10% of the Accumulation Value each year while the annuitant is confined. This waiver is only available for issue ages 75 and younger and is automatically included with your annuity at no additional charge.

Required Minimum Distributions

By current company practice*, Required Minimum Distributions (RMD) that exceed the 5% penalty-free amount may be withdrawn without a Surrender Charge or Interest Adjustment.

Annuity Payout Options

You may select an annuity payout option at any time. If selected during the Surrender Charge period, your payout will be based on the Surrender Value. Available payout options include Life Income, Life Income with Period Certain, Joint and Survivor Life Income and Income for a Specified Period or Amount.

By current company practice*, you may receive an income from the Accumulation Value after the first contract year (without Surrender Charges or Interest Adjustment) if you choose a Life Income Option. You can also receive an income based on the Accumulation Value if your annuity has been in force for at least five years and you elect to receive payments over at least a five year period.

Once a payout option is elected it cannot be changed and all other rights and benefits under the annuity end. The GLWB feature of this annuity will terminate upon electing an annuity payout option.

*A feature offered "by current company practice" is not a contractual guarantee of this annuity Contract and can be removed or changed at any time.

The following are example calculations when withdrawals are taken, demonstrating the impact of withdrawals on the Accumulation Value (AV), Guarantee Lifetime Withdrawal Benefit (GLWB) Values, and Lifetime Payment Amount (LPA)
(Note: The following examples are hypothetical examples and are not intended to predict or project actual contract values.)

Example #1 Impact of Penalty-Free Withdrawal (WD) Prior to Lifetime Payment Election Date (LPED)
Beginning Values
Assume an Accumulation Value (AV) of \$100,000 and a Guaranteed Lifetime Withdrawal Benefit (GLWB) Value of \$150,000
Withdrawal Details
A penalty-free withdrawal (WD) equal to 5% of the AV (\$5,000) is taken. A penalty-free WD prior to the LPED will reduce the GLWB Value by the same percentage that the AV was reduced by that WD. In this example, this means the GLWB Value will be reduced by 5%. 5% of the GLWB Value = 5% x \$150,000 = \$7,500
Ending Values
AV after WD = \$100,000 - \$5,000 = \$95,000 GLWB Value after pro-rata reduction for WD = \$150,000 - \$7,500 = \$142,500 Note that the GLWB Value was reduced by more than the dollar amount of the WD from the AV.
Example #2 Impact of Withdrawals (WD) in Excess of Penalty-Free Withdrawal Prior to Lifetime Payment Election Date (LPED)
Beginning Values
Assume an Accumulation Value (AV) of \$100,000 and a Guaranteed Lifetime Withdrawal Benefit (GLWB) Value of \$150,000
Withdrawal Details
A Withdrawal (WD) in excess of the penalty-free withdrawal WD amount is taken. The WD amount is \$10,000, or 10% of the AV. A WD prior to the LPED will reduce the GLWB Value by the same percentage that the AV was reduced by that WD. In this example, this means the GLWB Value will be reduced by 10%. 10% of the GLWB Value = 10% x \$150,000 = \$15,000
Ending Values
AV after WD = \$100,000 - \$10,000 = \$90,000 GLWB Value after pro-rata reduction for WD = \$150,000 - \$15,000 = \$135,000 Note that the GLWB Value was reduced by more than the dollar amount of the WD from the AV.
Example #3 Impact of Withdrawal (WD) in Excess of Lifetime Payment Amount after Lifetime Payment Election Date (LPED)
Beginning Values
Assume an Accumulation Value (AV) of \$100,000; a Guaranteed Lifetime Withdrawal Benefit (GLWB) Value of \$150,000; an LPA of \$7,500; and a Lifetime Payment Percentage of 5.00%
Withdrawal Details
A Withdrawal (WD) in excess of the LPA is taken. The total WD amount is \$16,750. A WD after the LPED that is in excess of the LPA will reduce the GLWB Value by the same percentage that the AV was reduced by the excess WD. A WD after the LPED that is in excess of the LPA may also reset the LPA. In this example, the excess WD is \$16,750 - \$7,500 = \$9,250
Ending Values
AV after LPA = \$100,000 - \$7,500 = \$92,500 The excess WD of \$9,250 is 10% (\$9,250 / \$92,500) of the remaining AV, after the LPA is deducted but prior to the excess WD being deducted. AV after excess WD = \$92,500 - \$9,250 = \$83,250 GLWB Value after LPA = \$150,000 - \$7,500 = \$142,500 The remaining GLWB Value will then be reduced by the same percentage the excess WD reduced the AV. In this example, this means the remaining GLWB Value will be reduced by 10%. 10% of the GLWB Value (after the LPA) = 10% x \$142,500 = \$14,250 GLWB Value after pro-rata reduction for the excess WD = \$142,500 - \$14,250 = \$128,250 Note that the GLWB Value was reduced by more than the dollar amount of the excess WD from the AV. The LPA may also be reset as a result of the excess WD. The LPA is reset to equal the lesser of (1) the LPA before the excess WD or (2) the Lifetime Payment Percentage multiplied by the greater of (a) the AV after the WD or (b) the GLWB after the WD. (1) is the LPA before the excess WD = \$7,500 (2) is \$6,412.50, which is the greater of (a), which is Lifetime Payment Percentage (5%) multiplied by the AV after the excess WD (\$83,250) = \$4,162.50 or (b), which is Lifetime Payment Percentage (5%) multiplied by the GLWB Value after the excess WD (\$128,250) = \$6,412.50 LPA is reset to the lesser of (1) and (2); in this case, LPA is reduced from \$7,500 to \$6,412.50.

Example #4 Impact of an Excess Withdrawal (WD) after the Lifetime Payment Election Date (LPED) and when Accumulation Value (AV) is near Zero

Beginning Values

Assume an Accumulation Value (AV) of \$10,000 and a Guaranteed Lifetime Withdrawal Benefit (GLWB) Value of \$60,000 and a Lifetime Payment Amount (LPA) of \$5,000 and a Lifetime Payment Percentage of 5.00%

Withdrawal Details

A withdrawal (WD) in excess of the LPA is taken. The total WD amount is \$9,000.

A WD after the LPED that is in excess of the LPA will reduce the GLWB Value by the same percentage that the AV was reduced by the excess WD.

A WD after the LPED that is in excess of the LPA may also reset the LPA.

In this example, the excess WD is $\$9,000 - \$5,000 = \$4,000$

Ending Values

AV after LPA = $\$10,000 - \$5,000 = \$5,000$

The excess WD of \$4,000 is 80% ($\$4,000 / \$5,000$) of the remaining AV, after the LPA is deducted but prior to the excess WD being deducted.

AV after excess WD = $\$5,000 - \$4,000 = \$1,000$

GLWB Value after LPA = $\$60,000 - \$5,000 = \$55,000$

The remaining GLWB Value will then be reduced by the same percentage the excess WD reduced the AV. In this example, this means the remaining GLWB Value will be reduced by 80%. 80% of the GLWB Value (after the LPA) = $80\% \times \$55,000 = \$44,000$

GLWB Value after pro-rata reduction for the excess WD = $\$55,000 - \$44,000 = \$11,000$

Note that the GLWB Value was reduced by more than the dollar amount of the excess WD from the AV.

The LPA may also be reset as a result of the excess WD. The LPA is reset to equal the lesser of (1) the LPA before the excess WD or (2) the Lifetime Payment Percentage multiplied by the greater of (a) the AV after the WD or (b) the GLWB after the WD.

(1) is the LPA before the excess WD = \$5,000

(2) is \$550, which is the greater of

(a), which is Lifetime Payment Percentage (5%) multiplied by the AV after the excess WD ($\$5,000$) = \$250 or

(b), which is Lifetime Payment Percentage (5%) multiplied by the GLWB Value after the excess WD ($\$11,000$) = \$550

LPA is reset to the lesser of (1) and (2); in this case, LPA is reduced from \$5,000 to \$550.

S&P 500® Low Volatility Daily Risk Control 5% Index

S&P 500® Low Volatility Daily Risk Control 8% Index

(Please see your Annuity Disclosure for details.)

Thank you for considering a Fixed Index Annuity from Midland National® Life Insurance Company. Upon issue, this is an annuity contract/certificate between you and Midland National. It is an insurance contract/certificate filed with the state insurance department and governed by state insurance laws and your state insurance department.

A Midland National Fixed Index Annuity contract/certificate offers you flexibility to choose how to allocate your premiums to determine the manner in which your contract/certificate will earn interest. A Fixed Index Annuity is not a direct investment in the stock market. It is a long term insurance product with guarantees backed by Midland National and provides the potential for interest to be credited based in part on the performance of specific indexes without the risk of loss of premium due to market downturns or fluctuations. Midland National annuity products offer you, flexibility and choices in determining how you wish to have your contract/certificate premiums allocated. You may earn Interest Credits by allocating to an external index and by selecting from various interest crediting methods or by allocating your premium to the Fixed Account. If you elect to place your premium in the Index Options your Interest Credit will never be less than zero. If you elect to place your premium in the Fixed Account a set rate of interest will be credited each year.

A Midland National Fixed Index Annuity contains a minimum guaranteed interest rate, backed by the financial strength of Midland National. The minimum guaranteed interest rate is set at issue and guaranteed for the life of the contract/certificate.

It is critical you understand how the components of your Fixed Index Annuity work. There are two main aspects that factor in to determining the Interest Credits; the Index Account (Crediting Method) option and the index itself. If you elect to allocate your premiums and credited interest to an external index, those values are never invested directly in the external index itself. The investment performance of the external index to which your contract/certificate premiums and credited interest are allocated does not pass through to you like a security investment. If it is a stock based index you do not receive dividends. By allocating to an external index you merely select the manner used to measure what your credited interest will be. You ultimately decide how to allocate your premiums and credited interest.

S&P 500® Low Volatility Daily Risk Control 5% Index Option – *Ask your sales representative for availability in your state.*

The S&P 500 Low Volatility Index is a separate index, which measures performance of the 100 least volatile stocks in the S&P 500. The S&P 500 Low Volatility Daily Risk Control 5% Index strives to create stable performance through managing volatility to a 5% target (i.e. risk control) on the S&P 500 Low Volatility Index. The S&P 500 Low Volatility Daily Risk Control 5% Index adds an element of risk control by allocating between stocks, as represented by the S&P 500 Low Volatility Index, and cash. Because this index is managed to a volatility target, the index performance will not match the underlying performance of the S&P 500 Low Volatility Index (typically the volatility control tends to reduce the rate of negative performance and positive performance of the underlying S&P 500 Low Volatility Index – thus creating more stabilized performance).

Annual Point-to-Point with Index Margin Crediting Method – *Ask your sales representative for availability in your state.*

The S&P 500 Low Volatility Daily Risk Control 5% Index uses the Annual Point-to-Point with Index Margin crediting method. Annual Point-to-Point measures index growth using two points in time; the beginning index value and the ending index value for each contract/certificate year. Index linked gains are calculated based on the difference between these two values on an annual basis. The Index change if any, is then subject to an Index Margin. The resulting final value will be the amount of interest credited (Interest Credit) at the contract/certificate anniversary.

S&P 500® Low Volatility Daily Risk Control 8% Index Option – *Ask your sales representative for availability in your state.*

The S&P 500 Low Volatility Index is a separate index which measures performance of the 100 least volatile stocks in the S&P 500. The S&P 500 Low Volatility Daily Risk Control 8% Index strives to create stable performance through managing volatility to an 8% target (i.e. risk control) on the S&P 500 Low Volatility Index. The S&P 500 Low Volatility Daily Risk Control 8% Index adds an element of risk control by allocating between stocks, as represented by the S&P 500 Low Volatility Index, and cash. Because this index is managed to a volatility target, the index performance will not match the underlying performance of the S&P 500 Low Volatility Index (typically the volatility control tends to reduce the rate of negative performance and positive performance of the underlying S&P 500 Low Volatility Index – thus creating more stabilized performance).

Two-Year Point-to-Point with Index Margin Crediting Method – *Ask your sales representative for availability in your state.*

The S&P 500 Low Volatility Daily Risk Control 8% Index uses the Two-Year Point-to-Point with Index Margin crediting method. Two-Year Point-to-Point measures index growth using two points in time; the beginning index value and the index value at the end of the 2-year term. Index-linked gains are calculated based on the growth between these two values less the annual Index Margin multiplied by two (which is the term length). The resulting final value will be the amount of interest credited (Interest Credit) at the end of the 2-year term.

Index Disclosure Supplement:

S&P Multi-Asset Risk Control 5% Excess Return Index (S&P MARC 5% ER)

(Please see your Annuity Disclosure for details.)

Thank you for considering a Fixed Index Annuity from Midland National® Life Insurance Company. Upon issue, this is an annuity contract between you and Midland National. It is an insurance contract filed with the state insurance department. Therefore, this contract is governed by state insurance laws and your state insurance department.

A Midland National Fixed Index Annuity contract offers you flexibility to choose how to allocate your premiums to determine the manner in which your contract will earn interest. You may earn Interest Credits by linking to an external index and by selecting from our various interest crediting methods or by allocating your premium to the Fixed Account. Midland National annuity products offer you, the customer, flexibility and choice in determining how you wish to have your contract premiums allocated. If you elect to place your premium in the Index Account, your Interest Credit will never be less than zero. If you elect to place your premium in the fixed account, a declared rate of interest will be credited each year.

A Midland National Fixed Index Annuity contains a minimum guaranteed interest rate, backed by the financial strength of Midland National. The fixed account minimum guaranteed interest rate is set at issue and guaranteed for the entire term of the contract.

If you elect to link your premiums and credited interest to an external index, your premiums are never invested directly in the external index. The investment performance of the external index that your premiums are linked to does not pass through to you as a security investment does. If it is a stock-based index you do not receive dividends. By linking to an external index you merely select the manner used to measure what your credited interest will be. You ultimately decide how to allocate your premiums and decide how interest credits to your contract will be calculated. It is critical you understand how the components of your Fixed Index Annuity work. There are two main aspects that factor in to determining the Interest Credits, the Index Account (Crediting Method) option and the index itself.

S&P Multi-Asset Risk Control 5% Excess Return Index Option

The S&P MARC 5% ER index is a multi-asset excess index that tends to create more stable returns through diversification, an excess return methodology, and by managing volatility. The index covers major asset classes which represent equities, U.S. Treasuries, gold, and cash. The index applies established rules to allocate amongst those asset classes. The S&P MARC 5% ER index value is available at the following website: <http://us.spindices.com/indices/strategy/sp-marc-5-excess-return-index>.

We reserve the right to add, remove or revise availability of the S&P MARC 5% ER index, or to substitute a different published benchmark should the Company, in its discretion, determine that the use of the S&P MARC 5% ER index no longer is commercially reasonable. The S&P MARC 5% ER index does not constitute a purchase of or direct investment in the index, or in the underlying components of the index. All references to S&P MARC 5% ER index values are used with the permission of S&P Dow Jones Indices and have been provided for informational purposes only. S&P Dow Jones Indices accepts no liability or responsibility for the accuracy of the prices or the underlying components to which the prices may be referenced.

Annual Point-to-Point Index Account

The S&P MARC 5% ER index is available with the Annual Point-to-Point Index Account option. Annual Point-to-Point measures index growth using two points in time, the beginning index value and the ending index value for each contract year. Index-linked gains are calculated based on the difference between these two values on an annual basis. The index growth, if any, is then subject to an Index Margin that is subtracted to determine your interest credit. No Cap Rate is applied. The annual interest credit will never be less than zero.

Additional Options

We feel it's important to offer you several options to which you can allocate your premium. We also offer annual transfer options that give you the opportunity to re-allocate your Accumulation Value to the various Fixed and Index Account options on an annual basis. Please contact your agent or Midland National for additional information.

IMPORTANT NOTICE: REPLACEMENT OF LIFE INSURANCE OR ANNUITIES

This document must be signed by the applicant and the producer, if there is one, and a copy left with the applicant.

You are contemplating the purchase of a life insurance policy or annuity contract. In some cases, this purchase may involve discontinuing or changing an existing policy or contract. If so, a replacement is occurring. Financed purchases are also considered replacements.

A replacement occurs when a new policy or contract is purchased and, in connection with the sale, you discontinue making premium payments on the existing policy or contract, or an existing policy or contract is surrendered, forfeited, assigned to the replacing insurer, or otherwise terminated or used in a financed purchase.

A financed purchase occurs when the purchase of a new contract involves the use of funds obtained by the withdrawal or surrender of or by borrowing some or all of the policy values, including accumulated dividends, of an existing policy or contract to pay all or part of any premium or payment due on the new contract. A financed purchase is a replacement.

You should carefully consider whether a replacement is in your best interest. You will pay acquisition costs and there may be surrender costs deducted from your policy or contract. You may be able to make changes to your existing policy or contract to meet your insurance needs at less cost. A financed purchase will reduce the value of your existing policy and may reduce the amount paid upon the death of the insured.

We want you to understand the effects of replacements before you make your purchase decision and ask that you answer the following questions and consider the questions on the back of this form.

1. Are you considering discontinuing making premium payments, surrendering, forfeiting, assigning to the insurer, or otherwise terminating your existing policy or contract? ____ YES ____ NO
2. Are you considering using funds from your existing policies or contracts to pay premiums due on the new contract? ____ YES ____ NO

If you answered "yes" to either of the above questions, list each existing policy or contract you are contemplating replacing (include the name of the insurer, the insured or annuitant and the policy or contract number if available) and whether each policy or contract will be replaced or used as a source of financing:

Make sure you know the facts. Contact your existing company or its agent for information about the old policy or contract. If you request one, an in-force illustration, policy summary or available disclosure documents must be sent to you by the existing insurer. Ask for and retain all sales material used by the agent in the sales presentation. Be sure that you are making an informed decision.

A replacement may not be in your best interest, or your decision could be a good one. You should make a careful comparison of the costs and benefits of your existing policy or contract and the proposed contract. One way to do this is to ask the company or agent that sold you your existing policy or contract to provide you with information concerning your existing policy or contract. This may include an illustration of how your existing policy or contract is working now and how it would perform in the future based on certain assumptions. Illustrations should not, however, be used as a sole basis to compare policies or contracts. You should discuss the following with your agent to determine whether replacement or financing your purchase makes sense:

PREMIUMS:

- Are they affordable?
- Could they change?
- You're older--are premiums higher for the proposed new policy?
- How long will you have to pay premiums on the new policy? On the old policy?

POLICY VALUES:

- New policies usually take longer to build cash values and to pay dividends.
- Acquisition costs for the old policy may have been paid; you will incur costs for the new one.
- What surrender charges do the policies have?
- What expense and sales charges will you pay on the new policy?
- Does the new policy provide more insurance coverage?

INSURABILITY:

- If your health has changed since you bought your old policy, the new one could cost you more, or you could be turned down.
- You may need a medical exam for a new policy.
- Claims on most new policies for up to the first two years can be denied based on inaccurate statements.
- Suicide limitations may begin anew on the new coverage.

IF YOU ARE KEEPING THE OLD POLICY AS WELL AS THE NEW POLICY:

- How are premiums for both policies being paid?
- How will the premiums on your existing policy be affected?
- Will a loan be deducted from death benefits?
- What values from the old policy are being used to pay premiums?

IF YOU ARE SURRENDERING AN ANNUITY OR INTEREST SENSITIVE LIFE PRODUCT:

- Will you pay surrender charges on your old contract?
- What are the interest rate guarantees for the new contract?
- Have you compared the contract charges or other policy expenses?

OTHER ISSUES TO CONSIDER FOR ALL TRANSACTIONS:

- What are the tax consequences of buying the new policy?
- Is this a tax-free exchange? (See your tax advisor.)
- Is there a benefit from favorable "grandfathered" treatment of the old policy under the federal tax code?
- Will the existing insurer be willing to modify the old policy?
- How does the quality and financial stability of the new company compare with your existing company?

RIGHT TO EXAMINE POLICY - It is important to us that you are satisfied with your policy and that it meets your insurance goals. Read it carefully. If you are not satisfied with it, you may return it to our Executive Office or to your agent within 30 days after you receive it. We will then void it and refund all premiums paid including any policy fees or charges. In the case of a variable or market value adjustment policy, we will refund the Policy Fund plus the sum of all charges deducted from your premiums, the Policy Fund and the Investment Divisions.

4. Was the Trust validly executed, and is it in full force and effect? ☐ Yes ☐ No

5. The Trustee acknowledges that this annuity contract is in no way required in conjunction with the establishment of a Trust and that any fees, costs and/or expenses associated with the establishment or maintenance of the Trust are independent of any premium paid for this annuity contract. ☐ Yes ☐ No

6. The Trustee acknowledges that if the annuity contract contains a Guaranteed Lifetime Withdrawal Benefit, upon the death of the Annuitant/Covered Person, Lifetime Payment Amounts terminate. ☐ Yes ☐ No

7. Is this Trust partially or fully funded by a replacement? ☐ Yes ☐ No

7. Declaration by Trustee(s) and Signatures

NOTICE: THIS SECTION CONTAINS A WAIVER AND RELEASE OF LIABILITY. PLEASE READ CAREFULLY.

This section is to be completed and signed by ALL Trustees required by the response to Question 1 in Section 6. For purposes of this section, "Trust" and "Trustees" refer to the Trust and its Trustee(s) identified on the first page of this form. "Annuity contract" refers to the annuity contract(s) referenced on the first page of this form together with any associated riders. "Owner," "Beneficiary," and "Annuitant" have the same meaning as defined in the annuity contract, and include multiple or joint Owners, Beneficiaries, or Annuitants where applicable. When not capitalized, "owners" and "beneficiaries" refer to the designated legal owners or beneficiaries of the Trust.

The undersigned persons ("the Trustees") represent, certify, and agree as follows:

A. The Trustees are the authorized Trustees of the Trust identified above, and are authorized and legally capable of purchasing the annuity contract. Midland National may rely upon the signatures of the Trustees on behalf of the Trust as if they were the actual Owner or Beneficiary of the annuity contract.

B. If the Trust is to be named the Owner of the annuity contract, the Trust is authorized under the terms of the Trust to purchase and hold the annuity contract, and if the Trust is to be named the Beneficiary of the annuity contract, the Trust is authorized under the terms of the Trust to receive the annuity contract proceeds.

C. No additional authorizations are necessary to purchase the annuity contract.

D. The Trustees acknowledge and agree that Midland National has no responsibility for reviewing or interpreting Trust or Trust-related documents, that Midland National will issue and administer the contract based solely upon the representations made by the Trustees in this form, and that any consequence of any error, inaccuracy, or misunderstanding in interpreting the Trust will be borne solely by the Trustees.

E. The Trustees have reviewed all provisions of the Trust and annuity contract. By accepting the annuity contract, the Trustees certify they have determined that:

i. None of the provisions of the Trust (including income and corpus distribution requirements) conflict or will interfere with the terms and operation of the annuity contract; and

ii. None of the provisions of the annuity contract (including distribution requirement(s) under Section 72(s) of the Internal Revenue Code as incorporated into the terms of the annuity contract and applicable surrender charges) conflict or will interfere with the terms and operation of the Trust.

7. Declaration by Trustee(s) and Signatures, continued

- F. Neither Company nor any of its agents/representatives, officers, or employees has made to the Trustees any representations regarding the potential tax liabilities or implications associated with the purchase of the annuity contract. The Trustees agree that they independently made a determination as to the suitability of the annuity contract for the Trust's purposes as well as the potential tax liabilities or implications which may result from the purchase of the annuity contract, and certify that they have had the opportunity to consult with their own independent tax, legal, and financial advisors regarding the purchase of the annuity contract. The Company may conduct its own evaluation as to suitability of the purchase of the annuity contract consistent with any requirements that may be imposed under state or federal law and may reject any application to purchase the annuity contract based upon its own review, if conducted. The Trustees expressly waive any claims against Company and its agents/representatives, officers, and employees related to the purchase of the annuity contract, and fully release from liability Company and its agents/representatives, officers, and employees from any such claims.
- G. The Trustees further acknowledge and agree that:
- Midland National does not make and has not made any recommendations regarding the use of a Trust for any purpose, Midland National's agents/representatives are not authorized to recommend or sell Trusts while acting in their capacity as an agent/representative for Midland National, and any Trust recommendation should be provided by a qualified tax or legal advisor;
 - Midland National's agents/representatives may also be duly licensed professionals (e.g. attorneys or accountants). However, any tax, estate/probate, or other legal or financial advice provided by such individuals is solely in their capacity as independent professionals, and not in their capacity as an agent/representative of Midland National;
 - The Trustees have not relied upon any representation or advice of any of Midland National's agents/representatives, employees with respect to the validity, terms, or utilization of the Trust as the Owner or Beneficiary of the annuity contract; and
 - The establishment of the Trust is not required in conjunction with the purchase of the annuity contract, and that any fees, costs, and/or expenses associated with the establishment of the Trust are independent of any premium paid for the purchase of the annuity contract.
- H. The Beneficiary(ies) of the Trust is/are each a natural person. No Beneficiary of the Trust is an entity, such as a corporation, another Trust, educational or religious institution, or charity, and the Trustees do not have discretion to pay Trust benefits to any entity. Based on independent advice received from a qualified tax or legal advisor, the Trustees have determined that the Trust will be holding the annuity policy/contract as an agent/representative solely for a natural person (or solely for natural persons) within the meaning of section 72(u)(1) of the Internal Revenue Code.
- I. If the Trust is a testamentary Trust, the Trust currently exists and all required probate proceedings have been completed.
- J. The Trust is not a Welfare Benefit Trust or a Trust set up as part of a Non-qualified Deferred Compensation Plan.
- K. The Trustees understand that the annuity contract will terminate in accordance with the terms of the annuity contract upon the death of the Annuitant, resulting in a mandatory distribution of funds from the annuity contract in accordance with its terms.
- L. The Trustees agree that Midland National shall have no responsibility with respect to the use or application of any funds paid to the Trust or the Trustees.
- M. The Trustees agree that each and every Trustee and successor Trustee is bound by the declarations of the Trustees signing this form. The Trustees further agree that Midland National may rely upon the directions of the Trustees identified in this form and any named successor Trustees until Midland National receives at its Executive Office written notification of a change of Trustee in a form acceptable to Midland National. The Trustees agree to notify Midland National of any change in Trustee within a reasonable time. The Trustees further agree to promptly notify Midland National if there is any change of facts that would affect any of the representations, certifications, or agreements contained in this form.
- N. The Trustees agree to release and hold harmless Midland National, its officers, employees, agents/representatives, and affiliates from and against all claims, liabilities, costs, and expenses which may arise or result from:
- any action taken by Midland National at the direction of the Trustees or their successors;
 - any tax, estate/probate, or other legal or financial liability or consequences associated with the Trust's purchase or ownership of the annuity contract;
 - any error, inaccuracy, or misunderstanding in interpreting the Trust, and
 - Midland National's reliance on the Trustee's representations regarding the Trust or their authority with respect to the Trust.

Note: The number of Trustees indicated in Section 6, Question 1 must sign below.

For Corporate Trustees, you must submit a Corporate Resolution verifying individuals authorized to sign on behalf of the entity.

☐ **As soon as possible after receipt of all necessary forms** ☐ **On a specific date:** _____

I / We also understand it is my / our responsibility to confirm with the surrendering company their processing guidelines to selecting a specific transfer date.

3. DISCLOSURES / ACKNOWLEDGMENTS

- I. I fully assign and transfer all claims, options, privileges, rights, title and interest to either all of the life insurance policy, all of the annuity contract or part of the annuity contract value identified in the Contract Information section on page 1 to the receiving company. The sole purpose of this assignment is to effect a tax-free exchange under Section 1035(a) of the Internal Revenue Code. All of the powers, elections, appointments, options and rights I have as owner of the contract, including the right to surrender, are now exercisable by the receiving company. Simultaneous with a full assignment, I also revoke all existing beneficiary designations under the Assigned Policy. Other than the above mentioned owner, no person, firm, or corporation other than myself and the insurer that issued the above numbered policy, has an interest in said policy. No proceedings in insolvency or bankruptcy have been instituted by or against me. I understand that the receiving company intends to surrender the contract for the cash value; or if this is a partial exchange, the portion assigned, subject to its terms and conditions, and to use the proceeds as the purchase payment for the new contract to be issued by the receiving company. I authorize the surrendering company to send the proceeds directly to the receiving company and understand that fees and surrender charges may apply. This exchange is subject to acceptance by the receiving company. Neither the receiving company nor the surrendering company is liable or responsible for changes in market value that may occur after the surrendering company has processed the transaction and before the proceeds are received by the receiving company in good order and allocated to the new contract. Prior to the date of receipt of the proceeds by the receiving company, no value will accrue or be earned on the receiving company contract.
- II. If this is a partial exchange, I understand that it is subject to Revenue Ruling 2003-76, which dictates how much of the original contract's cost basis must be allocated to the new contract. The cost basis should be allocated ratably between the two contracts based on the percentage of the value retained in the original contract and the percentage of the value transferred to the new contract. For example, if the contract value is \$100,000 and basis is \$50,000, and I assign 30% for a partial exchange, then \$15,000 (30% of \$50,000) of the basis would be applied to the new contract. I understand that the IRS has raised concerns about annuity contract owners using partial exchanges to avoid income tax, and I certify that I am not entering into this transaction for the purpose of reducing or avoiding income tax or the 10% penalty tax for early withdrawals.

I expressly represent that the sole purpose is to effect a partial 1035 exchange of an annuity contract. However, I acknowledge that Revenue Procedure 2011-38 states that withdrawals from annuitization, taxable owner or annuitant changes, or surrenders, other than an amount received as an annuity for a period of 10 years or more or during one or more lives, of either the original contract or the new contract during the 180 day period following the partial exchange, may affect the tax free status of the partial exchange.

Note: Other exceptions may apply and a subsequent direct transfer of all or a portion of either contract involved in the exchange could have tax and tax reporting consequences. Please consult your tax advisor. Please confirm with the carrier if they will support partial 1035 exchanges.

I acknowledge that the receiving company has made no representations concerning any tax treatment of this transaction. I understand that the receiving company has neither responsibility nor liability for the validity of this transaction or for my treatment under Section 1035(a) of the Internal Revenue Code or otherwise. Therefore, I agree to release and hold harmless the receiving company and its agents from any and all liability arising from, relating to, or in connection with, the taxation of a partial exchange of the above listed contract. I authorize the receiving company and the surrendering institution to share information necessary to maintain accurate records of the annuity cost basis and to ensure proper withholding and tax reporting. I have been directed to consult my tax or legal advisor before proceeding.

- III. I authorize the receiving company to rely upon the cost basis information provided by the surrendering company, but agree that the receiving company will assume no responsibility for determining or verifying cost basis. If cost basis is not provided, I acknowledge that more restrictive or less beneficial tax rules may apply to the amounts transferred. I acknowledge that the receiving company provides this form and participates in this transaction as an accommodation to me. The receiving company does not give tax or legal advice on the tax consequences for replacing one contract for another, and assumes no responsibility or liability for the validity of this assignment or for the tax treatment of this exchange under IRC Section 1035(a) or other laws or regulations.
- IV. I agree that if the receiving company, in its sole discretion, determines that it is unlikely to receive timely payment of the full contract cash surrender values, the receiving company may reassign ownership of the policy/contract back to me.
- V. RETURN OF LIFE INSURANCE POLICY OR ANNUITY CONTRACT - Does not apply to partial 1035 exchanges on annuity contracts. Unless the surrendering company's policy or contract is attached, I affirm that the policy or contract has been destroyed or lost and that reasonable effort has been made to locate it. To the best of my knowledge no one else has any right, title or interest in the contract, nor has it been assigned, pledged or encumbered, unless this is a life insurance policy with a loan to carry forward.
- VI. MAXIMUM ISSUE AGE DISCLOSURE - An annuity contract may not be issued should the funding requirements be received after reaching maximum issue age for the annuity contract applied for. If the funds are received after the maximum issue age, the contract may be rejected and the funds returned to their original source. The surrendering company may or may not take the funds back, which could result in a taxable event.
- VII. NON-QUALIFIED TRANSFER OF FUNDS (NON 1035 EXCHANGE) - The receiving company will apply all such funds received to an annuity contract issued to me. I understand that the receiving company assumes no responsibility for tax treatment of this matter and I shall be responsible for payment of all federal, state and local taxes incurred with respect to the liquidation of such account. I acknowledge that the earnings credited under the annuity contract will begin to accrue when the receiving company receives these proceeds and all other necessary paperwork in good order. For index annuities, fixed account interest under the annuity contract will begin to accrue on the next Issue Day.
- VIII. TRANSFER / EXCHANGE OF FUNDS INTO A TSA/403(B) - The TSA/403(b) owner / participant's employer or employer's third-party administrator must authorize and sign this transfer request in Section 5.

Authorization for a TSA/403(b) transfer / exchange to a TSA/403(b): This request is for the direct transfer / exchange of non-ERISA funds from the TSA/403(b) (annuity contract) or 403(b)(7) (custodial account) identified in Section 1 of this form to a TSA/403(b) (annuity contract) established on my behalf by the receiving company. I hereby agree to surrender my interest as indicated above and authorize the receiving company to take whatever action necessary to effect this transfer / exchange. I acknowledge that the transferred / exchanged funds shall be subject to the more stringent restrictions on distributions found in either the predecessor annuity contract or the receiving annuity contract. I intend this transaction to be a 403(b) transfer / exchange of funds pursuant to IRC section 403(b) and the final regulations. The transfer / exchange is to be executed from financial institution to financial institution in such a manner that it will not place me in actual or constructive receipt of all or any part of the transferred / exchanged funds. Because this transaction constitutes a direct rollover / transfer / exchange of funds and not a distribution, withholding does not apply. (Provide the receiving company with any records or documents they may request with respect to this transfer / exchange.)

- IX. The IRS has provided limited guidance on the tax consequences of transferring a life insurance policy with values less than the investment in the contract to a new or existing annuity contract. If the owner surrenders the newly acquired annuity contract, it's not clear whether the annuity losses are fully deductible against ordinary income or deductible as a miscellaneous deduction subject to a limitation of 2% of adjusted gross income (AGI). If the IRS views the two transactions as a single integrated transaction, they could consider it a step transaction and successfully disallow the losses as a tax deduction.

4. TAXPAYER IDENTIFICATION NUMBER CERTIFICATION

Under penalties of perjury, I certify that:

1. The number on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. person (including a U.S. resident alien).
☐ Check this box if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return.
4. I am exempt from Foreign Account Tax Compliance Act (FATCA) reporting.

5. SIGNATURES

This transfer request also authorizes the receiving and surrendering company to request information on the status of this transfer or exchange by phone or in writing. By signing below, I represent that the responses herein are, to the best of my knowledge, accurate and I have read the DISCLOSURES / ACKNOWLEDGMENTS section on page 2 the ACORD 1035 Exchange / Rollover / Transfer Form.

The Internal Revenue Service does not require your consent to any provisions of this document other than the certifications required to avoid backup withholding.
