Any changes to the application as noted here must be signed in writing by the applicant.

This Disclosure summarizes important points for you to consider before you purchase Standard Insurance Company's (The Standard's) Focused Growth Annuity.

The Focused Growth Annuity (FGA) is a single-premium deferred annuity. You purchase the annuity with one premium payment, but premiums are accepted during the first 90 contract days to accommodate multiple roll-overs, transfers and exchanges. The FGA is a fixed deferred annuity which means interest is earned during the accumulation phase and annuity payments are deferred until the annuity date or upon annuitization. The FGA's principal and earnings are not subject to income taxes until funds are withdrawn or distributed. A 10% IRS early-withdrawal penalty may apply to withdrawals or distributions prior to age 59½.

The main purpose of a deferred annuity is to save money for retirement and to receive retirement income for life. It is not meant for short-term financial goals.

If you have any questions about the FGA, please ask your broker or financial advisor. You may also contact us at the phone number shown above.

THE ANNUITY CONTRACT *How do I get an annuity started and how will the value of my annuity grow?*

Please check the appropriate box ☐ qualified annuity ☐ non-qualified annuity

Annuity An annuity allows you to pay a premium for the contract and interest will be earned on a tax-deferred basis. The premium and interest earnings are not subject to income taxes until the funds are withdrawn or distributed.

Issue Age An FGA 5, 6 or 7 will be issued to owners age 18-90 and annuitants age 0-90. An FGA10 will be issued to owners 18-80 for annuitants age 0-80.

Annuitant The annuitant is the person on whose life the amount and duration of annuity benefits are based.

Owner The owner is the person or entity who has purchased the contract and to whom the contract is issued.

Contract Effective Date The FGA's effective date is the date premium is received in The Standard's home office. The effective date is shown on the contract cover and in the contract's data pages.

Premium An FGA may be established with an initial premium of \$15,000 to \$1,000,000 (or more with prior home-office approval). Additional premium payments may be made during the first 90 days of the contract. This generally allows for multiple roll-overs, transfers and exchanges.

Interest Rates The initial premium will receive the interest rate in effect as of the date the application and premium are received in the home office. Additional premium received during the first 90 days of the contract will be credited with the interest rate in effect at the time they are received in the home office.

Premium payments are credited with a guaranteed interest rate for five years for the FGA5, six years for the FGA6, seven years for the FGA7, and ten years for the FGA10. Thereafter, the annuity fund will be credited with a renewal rate based on the current economic and interest rate environment.

Interest compounds daily.

Annuity Fund The annuity fund is the amount available to provide annuity benefits, surrender benefits and death benefits. The value of the annuity fund equals: (a) premium plus credited interest; minus (b) amounts surrendered, surrender charges and associated market value adjustments, and premium tax (if any).

Expense Charges There are no expense charges under the contract, other than surrender charges, market value adjustments, and premium tax in those states that require premium tax.

Safety and Guarantees During the market value adjustment period, The Standard guarantees that the owner will never receive less than 87½% of the total premium payments, net of any withdrawals or loans¹ taken. After the market value adjustment period, The Standard guarantees that the owner or beneficiary will never receive less than 100% of the total premium payments, net of any withdrawals or loans¹ taken.

SURRENDER BENEFITS
May I take money out of my annuity and, if so, how?

You may take money out of your annuity any time before annuity payments begin. You may take out all of your annuity’s fund value (**full surrender**) or part of it (**partial surrender**).

Withdrawals must be \$500 or more. At least \$2000 must remain in the account for the contract to remain in force.

A 10% IRS penalty may apply to withdrawals made before age 59½.

A Surrender Fee will be assessed on amounts you withdraw before the end of the Surrender Fee Period, as follows:

FGA5	Year	1	2	3	4	5				
	Charge	8%	7%	6%	5%	4%				
FGA6	Year	1	2	3	4	5	6			
	Charge	8%	7%	6%	5%	4%	3%			
FGA7	Year	1	2	3	4	5	6	7		
	Charge	8%	7%	6%	5%	4%	3%	2%		
FGA10	Year	1	2	3	4	5	6	7	8	9
	Charge	8%	7%	6%	5%	4%	3%	2%	1%	0.9%

Example: If you withdrew \$5,000 during the first contract year, an 8% surrender charge would apply. \$5,000 x .08 = \$400. The withdrawal amount paid would be \$5,000 - \$400 = \$4,600 plus the market value adjustment.

Market Value Adjustment During the first 5 contract years for the FGA5, the first 6 contract years for the FGA6, first 7 contract years for the FGA7, and first 10 contract years for the FGA10 a market value adjustment will be applied to withdrawals or surrenders. Generally, if interest rates have risen since the purchase, the adjustment will decrease the surrender value. If interest rates have fallen since the purchase, the adjustment will increase the surrender value.

Note: The market value adjustment is waived whenever surrender fees are waived.

ANNUITY BENEFITS *How do I get income (payouts) from my annuity?*

Annuity Date The annuity date is the contract anniversary nearest the annuitant's 95th birthday or the 10th contract anniversary, whichever is later. The contract will automatically annuitize and begin its payout phase, unless otherwise directed.

Payout Options You may choose from the following payment options:

Life Income – A guaranteed income for as long as the annuitant lives.

Joint & Survivor Life Income – A guaranteed income for as long as both annuitants live.

Certain Period – A guaranteed income for your chosen time period (5, 10, 15 or 20 years).

Life Income with Certain Period – A guaranteed income for your minimum chosen time period. If the annuitant is still living at the end of that period, payments continue as long as the annuitant lives.

Lump Sum – One lump-sum payment of the annuity fund.

If a payment option is not chosen, we will automatically pay under a 10-year certain and life payment option.

Annuitization An FGA may be converted into an income annuity with The Standard at any time. No surrender fees will apply if you choose a Life Income or at least a 5-year Certain Period payout option. If your state imposes a premium tax, it will be deducted from your annuitized payments.

Annuity Benefits The contract may not be surrendered once payment of annuity benefits has begun.

ACCESSING FUNDS *Are there ways to access funds without incurring a surrender fee?*

The FGA offers many ways to access funds without incurring a surrender fee. There are no surrender fees associated with the following options, but an IRS early withdrawal penalty may apply to withdrawals before you reach age 59½.

- Regularly scheduled payments of interest earnings.
- Nursing home confinement.^{2,3}
- Terminal condition.^{2,3}
- IRS Required Minimum Distributions.
- Out-of-surrender-fee-period withdrawals.

DEATH BENEFITS *What happens if I die?*

The annuity's value is paid to the beneficiary if the owner or the annuitant dies before the Annuity date, with a choice of payment options. However, death benefits must begin within one year of the date of death and may not extend beyond the beneficiary's life expectancy. Under federal law, if the beneficiary is the spouse as defined under federal law, that spouse does not need to have death benefits paid; rather, that spouse may continue the contract as though that spouse were the original owner.

ADVANTAGES OF TAX DEFERRAL *How will payouts and withdrawals from my annuity be taxed?*

The annuity fund under the FGA grows tax-deferred. Taxes will be due only when withdrawals or distributions are paid from the annuity. As a result, interest accumulates on the principal, earnings and on money that otherwise would be paid in income taxes (often referred to as triple-compounding). An IRS early withdrawal penalty may also apply to payouts and withdrawals paid before you reach age 59½. A tax-deferred annuity may be exchanged for another tax-deferred annuity without being assessed income tax on the earnings. There are no additional tax advantages to purchasing an annuity as part of a qualified plan, other than those provided by the qualified plan itself. Please consult your broker or financial advisor.

Contract SPDA; Riders R-EIO, R-NHB, R-TCB, R-MVAR, R-DB, SWO-DEF, R-ERTSA, R-NERTSA, IRA, Roth IRA, R-QPP

²Available after the first contract year.

³The nursing home confinement waiver is not available in Massachusetts. State-specific conditions apply to the terminal condition waiver.

OTHER INFORMATION *What else do I need to know?*

- You have 30 days to look over the annuity contract. You may return the contract to the agent who sold it or our home office within that 30 days. Any premium paid, including any contract fees or other charges, will be refunded, less any benefits paid, and the contract will be void and considered never in force.
- We pay a commission to the agent, broker or firm for selling you the annuity.

Market Value Adjustment During the market value adjustment period, a market value adjustment will be applied to withdrawals or surrenders. The market value adjustment is waived whenever surrender charges are waived. The adjustment is based on changes in the yields of the market value adjustment index and may increase or decrease the annuity's surrender value. Generally, if interest rates have risen since the purchase, the adjustment will decrease the surrender value. If interest rates have fallen since the purchase, the adjustment will increase the surrender value.

Illustrated Effect of Possible Market Value Adjustment Consider the combined charges for an early surrender when market value adjustment index rates increase or decrease. The sample calculation below assumes the index is 3.00% at issue then either rises to 5.00% or drops to 1.00%. The percentages are for illustrative purposes only. Actual results may vary.

Wisconsin Buyer's Guide to Annuities

OFFICE OF THE COMMISSIONER OF INSURANCE

PI-016 (R 11/2004)

WHAT IS AN ANNUITY?

An annuity contract is a written contract between you and a life insurance company. In return for your premium, the company will pay you an annuity which is a series of payments made at regular intervals. An annuity contract is not a life insurance policy or a health insurance policy. It is not a savings account or savings certificate and it should not be bought for short term purposes.

- AN ANNUITY IS NOT "RISK FREE" OR "GUARANTEED SAFE." IT IS ONLY AS SOUND AS THE INSURANCE COMPANY WHICH ISSUES IT.
- IF YOU TAKE YOUR MONEY OUT AFTER A SHORT TIME, PENALTY PROVISIONS OF MANY CONTRACTS MEAN THAT YOU MAY GET BACK LESS THAN YOU PUT IN.

TYPES OF ANNUITY CONTRACTS

Annuity contracts vary in a number of ways. The following are some of the more important ways:

WHEN BENEFITS ARE RECEIVED

- Annuities may be either immediate or deferred. Immediate annuities provide income payments that start shortly after you pay the premium. Deferred annuities provide income payments that start at a later date. The main reason for buying an immediate annuity is to obtain an immediate income, most frequently for retirement purposes. The main reason for buying a deferred annuity is to accumulate money on a tax-deferred basis, which can then provide an income at a later date.

HOW PREMIUMS ARE PAID

- Annuities may be either single premium or installment premium. Single premium contracts require you to pay the company only one premium. Installment premium contracts are designed for a series of premiums. Most of these are flexible premium contracts. You pay as much as you wish whenever you wish, within specified limits. Some are scheduled premium contracts that specify the size and frequency of your premiums.

FIXED OR VARIABLE

- Annuities may be fixed, variable, or a combination of both. During the deferred period of a fixed annuity contract, interest is paid on the accumulated premiums

(minus charges) at a rate set by the company. The amount of each annuity payment is determined when payments begin. During the deferred period of a variable annuity, interest is paid on the accumulated premiums (minus charges) at a rate that varies with the performance of a specified pool of investments. The amount of each annuity payment also varies with the performance of the pool. Combination annuities allow you to put part of your premium in a fixed annuity and part in a variable annuity.

ANNUITY CONTRACT FEATURES

The value of your annuity consists of the premiums you have paid, less charges, plus interest credited. This value is used to calculate the amount of benefits that you will receive. Charges, interest, surrender rights, and benefits are explained below.

CHARGES

There are many types and amounts of charges. Companies may refer to these charges by different names. Some annuities are "front loaded," which means that most of the costs to the company are charged to you in the beginning. Some are "back loaded," which means that most of these costs are charged to you later on. Others spread their charges evenly throughout the life of the annuity. Some charges will be fixed by the contract while some may be changed by the company from time to time.

Before buying an annuity you should know all of the charges that you will pay and when you will pay them. Also, you should understand how these charges might affect the actual amount of money that will accumulate from your premium payments. A typical contract might contain one or more of the following types of charges:

- *Percentage of Premium Charge.* This charge, often called a "load," is deducted from each premium before any interest is added. The percentage may reduce after the contract has been in force for a certain number of years or after the total premiums paid have reached a certain level.
- *Contract Fee.* This is a flat dollar amount charged either once at the time of issue, or charged once each year.
- *Transaction Fee.* This is a fixed charge per premium payment or other transaction.

- **Surrender Charge.** This charge is usually a percentage of the value of the contract or of premiums paid. The percentage may be reduced or eliminated after the contract has been in force for a certain number of years. Sometimes the charge is a reduction in the interest rate credited. Sometimes the charge is eliminated if the interest rate declared by the company falls below a certain level.

INTEREST

The interest rate used to accumulate contract values may never be less than the guaranteed rate stated in the contract. In practice, the interest rate actually used by a company, usually referred to as the “current” rate, is often higher. The company may change the current rate from time to time, but it cannot be lower than the guaranteed rate. Companies differ substantially in their methods of determining the current rate.

SURRENDER RIGHTS

Most annuities allow you to surrender your contract if income payments have not yet started. Upon surrender, the contract terminates. The surrender value is equal to your contract value less the surrender charge, if any. This amount could be less than you paid in.

Many annuities also provide that you may withdraw a portion of your contract value, under certain conditions, without terminating the contract. A charge may be deducted from the amount withdrawn. This charge is usually a percentage of either the accumulated value of the contract, the premiums paid or the portion withdrawn.

There may be certain tax penalties for early surrenders. Be sure you understand any tax implications before surrendering an annuity contract.

BENEFITS

Annuity contracts provide a number of benefits. While the annuity income benefit is the primary one, other benefits are also important. Some of the more important ones are described below:

Annuity Income Benefit

Income payments are usually made monthly, although other frequencies are available. The amount of the annuity payments is based on both the value of the contract and the contract’s “benefit rate” when the first payment is made. The benefit rate depends on your age, sex, and the specific features of the annuity you chose.

Annuity contracts contain a table of guaranteed benefit rates. Most companies periodically develop “current” benefit rates as well. These rates are subject to change by the company at any time. When annuity payments begin, the company will determine the amount of each payment according to the current benefit rates then in

effect. If the guaranteed benefit rates would provide higher income payments, those rates will be used. Once payments begin, they are unaffected by any future benefit rate changes.

The most commonly available annuity income benefits are:

- **Straight Life.** The annuity is paid as long as you are alive. There are no further payments to anyone after your death.
- **Life With Period Certain.** The annuity is paid as long as you are alive. If you die before the end of the period referred to as the “certain period,” the annuity will be paid to your beneficiary for the rest of that period. Typical certain periods are 10 or 20 years.
- **Joint and Survivor.** The annuity is paid as long as either you or another named annuitant is still alive. In some variations, the annuity is decreased after the first death. A period certain may also be available with this form.

Death Benefit

Most contracts provide that, if you die before the annuity payments start, the contract value will be paid to your beneficiary. Some contracts provide that the death benefit will be the total premiums paid if that amount is greater than the value of the contract at death.

Waiver of Premium Benefit

Some companies offer a benefit which will pay premiums for you if you become disabled. A charge is made for this benefit.

HOW MUCH SHOULD I BUY?

Before buying, ask yourself these questions:

1. How much annuity income will I need in addition to social security, pension savings, and investments?
2. Will I need an income only for myself or also for someone else?
3. How much can I afford to pay in premiums?
4. How will the annuity contract fit in with my total financial planning?

HOW TO BUY AN ANNUITY

Buying an annuity contract is a major financial decision which should be considered carefully. The prospective purchaser of an annuity contract should consider the offerings of as many different companies and agents as possible.

CONTRACT SUMMARY

In addition to receiving this Buyer's Guide, you must receive either a Preliminary Contract Summary or a Contract Summary prior to the time you pay the initial premium. If you did not receive a Contract Summary with this Buyer's Guide, you must receive one when the contract is delivered or you can ask for one now. You should review the contract summary thoroughly.

Accumulated values and surrender values under the contract are illustrated for various years on this summary. During the first few years, these values may be less than premiums paid. This is why an annuity contract should not be purchased for short term purposes.

Also illustrated are the yields on gross premiums at specified times. Yields take into account not only the interest credited under the contract, but also the effect of all charges. The yield on gross premiums is a figure you can use to compare annuity contracts. Be careful in comparing this yield with yields available on other investments. The tax treatment of annuity earnings is usually substantially different from that of earnings from other investments.

One reason for buying an annuity contract is to obtain an income, so you should review the life income figures.

Values and income figures may be shown on both a "guaranteed" and an "illustrated" basis. The guaranteed basis shows the minimum values and income which would be paid under the contract. The "illustrated" basis shows the values and income which would be paid if the current interest and benefit rates were to continue in effect. Since it is impossible to predict future interest and benefit rates, you will have to decide whether to rely on any illustrated basis values when making your purchase decision.

OTHER POINTS TO CONSIDER

Be certain you understand all charges that will be made and how they may reduce the value of the annuity.

Be certain you can afford the premium payments.

Check whether the annuity contract allows you to change the amount and frequency of your premium payments. Find out what happens if you stop paying premiums.

You may want to obtain and compare Contract Summaries for similar contracts from several companies. Comparing these should help you in your selection.

If you are buying an annuity contract for an Individual Retirement Account (IRA) or another tax deferred retirement program, make sure that you are eligible. Make sure that you understand any restrictions and tax implications connected with the program.

If you are shown a presentation which illustrates tax savings, be sure the assumptions, such as the tax bracket, apply in your case.

Some companies offer deposit fund arrangements with their life insurance policies or annuity contracts. These arrangements allow you to pay amounts in addition to your premiums that will be accumulated at interest in much the same way as under a deferred fixed annuity contract.

There are potential tax implications if an annuity contract is surrendered. Make sure you understand any tax penalties that would be imposed on surrender. If in doubt, consult your tax advisor.

READ THE CONTRACT

When you receive your new annuity contract read it carefully. Ask the agent or the company for an explanation of anything you do not understand.

Notice of Replacement of Life Insurance or Annuities

1 Important Notice: Replacement of Life Insurance or Annuities

(This notice must be signed by the applicant(s) and broker, with the original sent to Standard Insurance Company and a copy left with the applicant(s).)

You are contemplating the purchase of a life insurance policy or annuity contract. In some cases this purchase may involve discontinuing or changing an existing policy or contract. If so, a replacement is occurring. Financed purchases are also considered replacements.

A replacement occurs when a new policy or contract is purchased and, in connection with the sale, you discontinue making premium payments on the existing policy or contract, or an existing policy or contract is surrendered, forfeited, assigned to the replacing insurer, or otherwise terminated or used in a financial purchase.

A financed purchase occurs when the purchase of a new life insurance policy involves the use of funds obtained by the withdrawal or surrender of or by borrowing some or all of the policy values, including accumulated dividends, of an existing policy or contract to pay all or part of any premium or payment due on the new policy. A financed purchase is a replacement.

You should carefully consider whether a replacement is in your best interests. You will pay acquisition costs and there may be surrender costs deducted from your policy or contract. You may be able to make changes to your existing policy or contract to meet your insurance needs at less cost. A financed purchase will reduce the value of your existing policy and may reduce the amount paid upon the death of the insured individual.

We want you to understand the effects of replacements before you make your purchase decision and ask that you answer the following questions and consider the questions on page 2 of this form.

- A. Are you considering discontinuing making premium payments, surrendering, forfeiting, assigning to the insurer or otherwise terminating your existing policy or contract? ☐ Yes ☐ No
- B. Are you considering using funds from your existing policies or contracts to pay premiums due on the new policy or contract? ☐ Yes ☐ No
- C. If you answered "Yes" to either of the above questions, list each existing policy or contract you are contemplating replacing (include the name of the insurer, the insured or annuitant, and the policy or contract number, if available) and whether each policy or contract will be replaced or used as a source of financing:

INSURER NAME	CONTRACT/POLICY NUMBER	NAME OF INSURED OR ANNUITANT	REPLACED (R) OR FINANCING (F)
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____

Make sure you know the facts. Contact your existing company or its agent for information about the old policy or contract. If you request, an in force illustration, policy summary or available disclosure documents must be sent to you by the existing insurer. Ask for and retain all sales material used by the agent in the sales presentation. Be sure that you are making an informed decision.

3 Important Replacement Issues

A replacement may not be in your best interest, or your decision could be a good one. You should make a careful comparison of the costs and benefits of your existing policy or contract and the proposed policy or contract. One way to do this is to ask the company or agent that sold you your existing policy or contract to provide you with information concerning your existing policy or contract. This may include an illustration of how your existing policy or contract is working now and how it would perform in the future based on certain assumptions. Illustrations should not, however, be used as a sole basis to compare policies or contracts. You should discuss the following with your agent to determine whether replacement or financing your purchase makes sense.

Premiums

- Are they affordable?
- Could they change?
- You're older -- are premiums higher for the proposed new policy?
- How long will you have to pay premiums on the new policy? On the old policy?

Policy Value

- Acquisition costs for the old policy may have been paid, and you may incur costs for the new one.
- What surrender charges do the policies have?
- What expense and sales charges will you pay on the new policy?
- Does the new policy provide more insurance coverage?

Insurability

- If your health has changed since you bought your old policy, the new one could cost you more, or you could be turned down.
- You may need a medical exam for a new policy.
- Claims on most new policies for up to the first two years can be denied based on inaccurate statements.
- Suicide limitations may begin anew on the new coverage.

If you are keeping the old policy as well as the new policy

- How are premiums for both policies being paid?
- How will the premiums on your existing policy be affected?
- Will a loan be deducted from death benefits?
- What values from the old policy are being used to pay premiums?

If you are surrendering an annuity or interest sensitive life product

- Will you pay surrender charges on your old contract?
- What are the interest rate guarantees for the new contract?
- Have you compared the contract charges or other policy expenses?

Other issues to consider for all transactions

- What are the tax consequences of buying the new policy?
- Is this a tax-free exchange? (See your tax advisor.)
- Is there a benefit from favorable "grandfathered" treatment of the old policy under the federal tax code?
- Will the existing insurer be willing to modify the old policy?
- How does the quality and financial stability of the new company compare with your existing company?
