Great American Life Insurance Company is not an investment adviser and the information provided in this document is not investment advice. You should consult your investment professional for advice based on your personal circumstances and financial situation.

Rates and caps are current as of the date shown and are subject to change at any time.

An indexed interest rate is based in part on the change in the value of the applicable index or exchange traded fund. The indexed interest rate for a term of an indexed strategy with a cap will never be more than its cap for that term. We do not guarantee that amounts allocated to an indexed strategy will earn interest, but the indexed interest rate for a term will never be less than 0%.

Early withdrawal charges apply if you surrender your annuity or take withdrawals from it during the first three contract years. Early withdrawal charges do not apply to amounts covered by the 10% free withdrawal allowance. Withdrawals and early withdrawal charges impact contract values and benefits. The amount payable to you if you surrender your contract will never be less than the Guaranteed Minimum Surrender Value.

The contract offers life payout options. If you select one of these options, we will make periodic payments until the death of the person on whose life payments are based. After the annuity payout initiation date, you cannot surrender your annuity or withdraw any other money from your annuity.

In general you will pay ordinary income taxes on the earned interest when you receive annuity payout benefits, you surrender your annuity or you take a withdrawal. You may pay a 10% federal penalty tax on the taxable amount of any payment that you receive before age 59½.
