¹ Rates are subject to change. Rates shown are for the No Return of Premium with No Market Value Adjustment (available in all states where product is available). Please contact your financial professional for current rates. ² This is an annual effective rate. Funds must remain in the annuity (without any withdrawals) each year in order to achieve this annual rate. After the guaranteed rate period, at the beginning of each subsequent Contract Year a renewal rate (guaranteed never to be less than 0.5%) will be declared and guaranteed for one year. You can access your money at any time by making a withdrawal, but you may be subject to a Withdrawal Charge. Withdrawals may also be subject to ordinary income tax, and a 10% IRS penalty may apply to amounts withdrawn prior to age 59½; please discuss taxation issues with a tax advisor. After the first Contract Year, you may withdraw up to 10% of the beginning-of-year Contract Value each year free of charges (except in year of full surrender). Any excess withdrawals will be subject to a Withdrawal Charge based on a three year decreasing surrender charge schedule of 8%, 8%, 7%, 0%.
